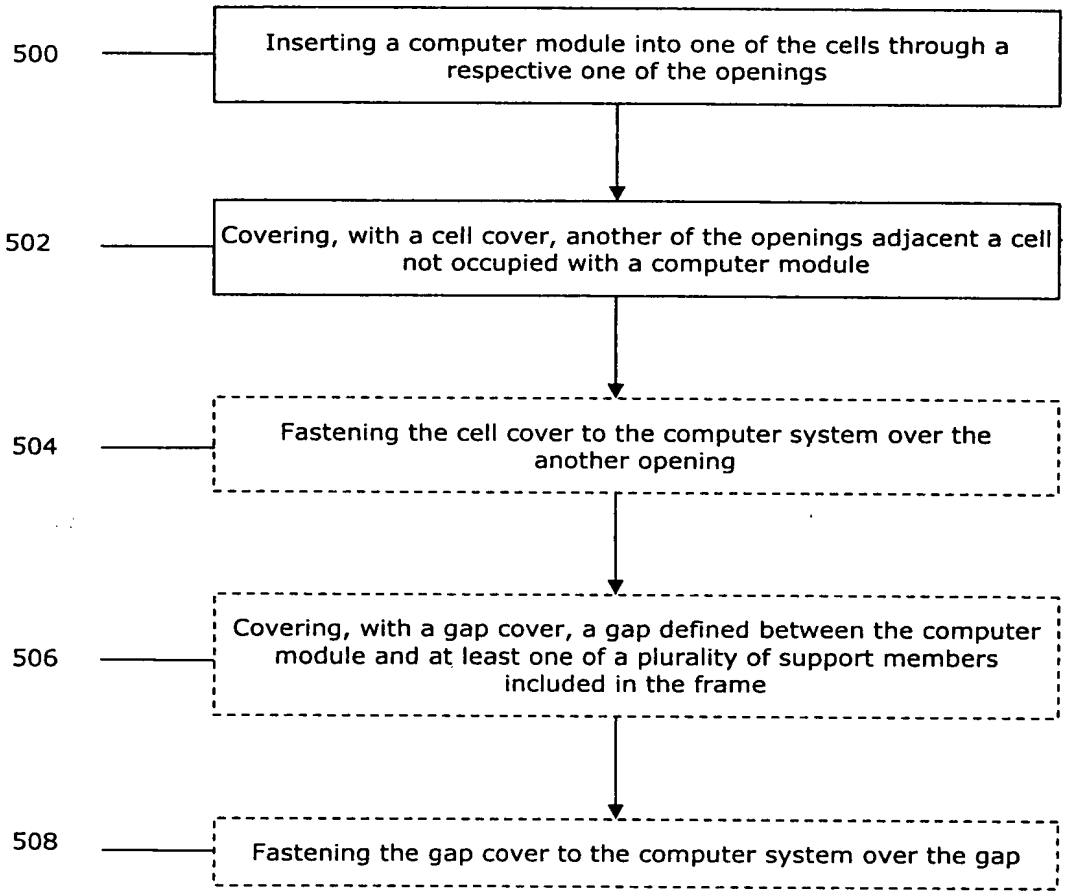
Figure 5



500
Inserting a computer module into one of the cells through a respective one of the openings
502
Covering, with a cell cover, another of the openings adjacent a cell not occupied with a computer module
504
Fastening the cell cover to the computer system over the another opening
506
Covering, with a gap cover, a gap defined between the computer module and at least one of a plurality of support members included in the frame
508
Fastening the gap cover to the computer system over the gap
